FORTIETH
ANNUAL ANNOUNCEMENT
OF THE
SAINT LOUIS MEDICAL COLLEGE.

SEVENTH AND MYRTLE STREETS,

ST. LOUIS.

Winter Session, 1881-82.

—AND—

CATALOGUE for 1880-81.

*The Regular Course of Lectures will commence on Monday, Sept.
26th, 1881, and continue until March 4th, 1882.*

ST. LOUIS:
John T. Smith & Co., Printers,
919 Olive Street.

ST. LOUIS MEDICAL COLLEGE.

BOARD OF TRUSTEES.

W. G. ELIOT, D. D.,	- - - -	PRESIDENT.
JOHN LAUGHTON, M. D.,	- - - -	VICE-PRESIDENT.
JAMES E. YEATMAN,	- - - -	SECRETARY.
WM. G. ELIOT, D. D.,	JAMES E. YEATMAN,	
NATHANIEL HOLMES,	GEORGE PENN, M. D.,	
JOHN LAUGHTON, M. D.,	C. W. STEVENS, M. D.,	
WAYMAN CROW,	CARLOS S. GREELEY,	
THOMAS ALLEN,	ADOLPH WISLIZENUS, M. D.,	
HENRY HITCHCOCK,	HENRY S. TURNER,	
E. C. SIMMONS,	SYLVESTER H. LAFLIN,	
F. L. HAYDEL, M. D.,	M. DWIGHT COLLIER,	
GEO. PARTRIDGE,	WILLIAM GLASGOW, JR.	

FACULTY.

- A. LITTON, M. D., Professor of Chemistry and Pharmacy.
J. B. JOHNSON, M. D., Professor of the Principles and Practice of Medicine.
E. H. GREGORY, M. D., Professor of the Principles and Practice of Surgery
and Clinical Surgery.
J. T. HODGEN, M. D., DEAN, Professor of Surgical Anatomy, Special Frac-
tures and Dislocations, and Clinical Surgery at
the City Hospital.
J. S. B. ALLEYNE, M. D., Professor of Therapeutics and Materia Medica, and
Diseases of Children.
E. F. SMITH, M. D., Professor of Clinical Medicine and Pathological Anatomy.
L. CH. BOISLINIERE, M. D., Professor of Obstetrics.
G. BAUMGARTEN, M. D., Professor of Physiology.
H. H. MUDD, M. D., Professor of Anatomy.

-
- H. H. MUDD, M. D., Demonstrator of Anatomy.
JOHN GREEN, M. D., Lecturer on Ophthalmology.
W. L. BARRET, M. D., Lecturer on Diseases of Women.
J. M. SCOTT, M. D., Lecturer on Clinical Medicine.
G. A. MOSES, M. D., Lecturer on Clinical Gynæcology.
N. B. CARSON, M. D., Assistant to the Chair of Surgery.
W. C. GLASGOW, M. D., Clinical Lecturer on Physical Diagnosis.
W. E. FISCHER, M. D., Lecturer on Therapeutics.
J. FRIEDMAN, M. D., Demonstrator of Chemistry.
EDWARD EVERS, M. D., Lecturer on Histology.
W. A. McCANDLESS, M. D., } Assistant Demonstrators of Anatomy.
FRANK R. FRY, M. D., }

ANNUAL ANNOUNCEMENT

1881-82.

The collegiate year of the St. Louis Medical College embraces a Spring session and a Winter session.

The Spring session of 1881 began on March 7th, and continued eleven weeks.

The fortieth regular Winter session will commence on Monday, September 26th, 1881, and continue until Saturday, March 4th, 1882.

The Spring session of 1882 will begin on Monday, March 13th. The course of instruction in this session will be announced by special programme in January, 1882.

The regular holidays during the Winter session will embrace Thanksgiving Day and the time between Christmas Eve and New Year's Day inclusive.

COURSE OF INSTRUCTION.

The Course of Studies in this school extends over a period of three years, and is a graded one, the student devoting himself during the first year mainly to theoretical and demonstrative branches—the fundamental sciences of medicine; and in the second and third year gradually taking up the practical subjects and specialties.

This plan has been pursued with complete success for the past year, the way having been opened for it in three preceding years by a voluntary Three-Term Course, of which an unexpectedly large proportion of students had availed themselves.

The individual branches will be treated by the following methods:

CHEMISTRY is taught in lectures (three a week) illustrated by experiments and specimens; the course embracing also selected chapters on physical science. A rich collection of chemicals and chemical and physical apparatus is at the disposal of the Professor of Chemistry.

The instruction in Practical Chemistry in the Laboratory is given, under the supervision of the Professor of Chemistry, by the Demonstrator of Chemistry;—during the Winter session to all Junior students, and during the Spring session to all who desire it.

ANATOMY.—Lectures (three a week) with practical demonstrations, and daily instruction in dissections. The anatomical rooms are under the superintendence and direction of the Professor of Anatomy and the Demonstrators, one of whom will always be present to assist the student in his anatomical studies. SURGICAL ANATOMY is taught in a separate course of lectures, abundantly illustrated by dissections, (three a week) during part of the Winter session.

HISTOLOGY is taught in lectures (one a week) with the aid of magic-lantern diagrams, and by microscopical demonstrations (two a week) of a large collection of microscopical preparations and of recent specimens.

PHYSIOLOGY.—The lectures (three a week) are illustrated by diagrams, chemical and physical experiments, and vivisections.

THERAPEUTICS AND MATERIA MEDICA.—The lectures (three a week) are illustrated by a very extensive cabinet of *materia medica*, with numerous plates, and a large collection of dried specimens of medicinal plants and carefully selected samples of drugs. Lectures on Special Therapeutic Methods are held during the Spring session twice a week.

PRINCIPLES AND PRACTICE OF MEDICINE.—Didactic lectures four times a week. **CLINICAL MEDICINE** is taught at the College (once a week) and in the **MEDICAL CLINICS** of Prof. Smith, at the City Hospital (twice a week) and of Dr. Glasgow, at the St. Louis Hospital (twice a week). In connection with these clinical lectures the student receives instruction in auscultation and percussion.

PATHOLOGICAL ANATOMY is taught in connection with clinical medicine, the College possessing abundant resources for illustrating this branch, in its extensive collection of pathological preparations and wax and plaster models. Full opportunity is afforded for observing the appearances of diseased organs after death; recent specimens are constantly on hand, and the student has access to the dead-rooms of the hospitals.

DISEASES OF CHILDREN.—Didactic lectures once a week.

SURGERY.—Didactic lectures (three a week). **SURGICAL CLINICS** are conducted throughout the year by Prof. Gregory, at the St. Louis Hospital (two a week), and by Prof. Hodgen, at the City Hospital (two a week.)

SPECIAL FRACTURES AND DISLOCATIONS are the subject of separate lectures (three a week) during part of the Winter session.

OPHTHALMOLOGY is taught in didactic lectures (one a week.) Clinical instruction in this branch is afforded throughout the year, at the St. Louis Eye and Ear Infirmary twice a week, and at the City Hospital twice a week. Senior students can also obtain access to the ophthalmic clinic of Dr. S. Pollak, at the St. Louis Hospital, twice a week.

GYNÆCOLOGY is taught in lectures (one a week.) **GYNÆCOLOGICAL CLINICS** are conducted throughout the year, at the St. Louis Hospital, twice a week.

OBSTETRICS.—Lectures (three a week). The course is profusely illustrated by a large and valuable collection of specimens,

and includes exercises in all the usual operations upon the manikin. Cases of midwifery are procured for the advanced students.

Besides these subjects, constituting the regular course of instruction attendance upon which is required for graduation, a number of special subjects are treated in courses of lectures, etc., during the Spring sessions. These courses will be announced to the students in a special programme issued in the month of January, preceding each Spring session.

CLINICS.

THE CITY HOSPITAL, in which nearly four thousand patients are treated annually, is visited regularly by Profs. Hodgen and Smith, who preside over the Surgical and Medical Clinic respectively. Ophthalmic Clinics are held twice a week, throughout the year, at the Hospital, by Dr. Green.

THE ST. LOUIS (or SISTERS') HOSPITAL, on Grand and St. Louis Avenues, affords in like manner, great advantages for clinical study, being entirely under the control of the St. Louis Medical College in so far as relates to its clinical facilities.

The Surgical clinic of Prof. Gregory is unsurpassed in the variety and importance of the cases treated. All the major and minor operations of surgery may be here witnessed by the student.

The Gynæcological clinic of Dr. Moses is held at this hospital, twice a week, throughout the year for the Senior students, who, under his supervision, perform all the manipulations connected with uterine examinations. A clinic for Chest Diseases (for students of the Middle and Senior Classes) is conducted by Dr. Glasgow. An Eye and Ear Clinic is held twice a week, at this hospital, under the charge of Dr. Pollak, who will afford every opportunity of obtaining a knowledge of this important branch.

ST. LUKE'S HOSPITAL is conveniently and centrally located on the corner of Tenth and St. Charles streets. The members of its professional staff are connected with the Faculty or corps of instructors of the St. Louis Medical College, and its large and well-attended Dispensary department affords abundant and excellent material for clinical instruction.

The St. Louis Eye and Ear Infirmary, whose clinics have been conducted during the past eight years for the exclusive benefit of the students of the St. Louis Medical College, is now carried on as a department of St. Luke's Hospital. To such advanced students as are fitted to profit by the study of this specialty, this clinic offers unequalled advantages. Systematic clinical instruction is given throughout the year by Dr. Green, the surgeon in charge of this department.

CURRICULUM. 1881-82

FIRST TERM. (*Junior Class.*)

CHEMISTRY,.....	Three Lectures a week.
CHEMICAL LABORATORY PRACTICE,.....	Six Hours a week.
ANATOMY,.....	Three Lectures a week.
DISSECTIONS,.....	Twelve Hours a week.
HISTOLOGY,.....	One Lecture a week.
HISTOLOGICAL DEMONSTRATIONS,.....	Two Hours a week.

The student is *advised* to attend, also, the Lectures on Physiology and on Materia Medica.

SECOND TERM. (*Middle Class.*)

DISSECTIONS,.....	Twelve Hours a week.
PHYSIOLOGY,.....	Three Lectures a week.
MATERIA MEDICA and THERAPEUTICS,.....	Three Lectures a week.
MEDICAL CLINICS and PATHOLOGICAL ANATOMY,.....	Five Hours a week.
SURGICAL CLINICS,.....	Four Hours a week.
SURGICAL ANATOMY, and FRACTURES & DISLOCATIONS,.....	Three Lectures a week.

The student is *advised* to attend, also, the Lectures on Chemistry, on Anatomy, and on the Principles and Practice of Medicine.

THIRD TERM. (*Senior Class.*)

DISSECTIONS,.....	Twelve Hours a week.
PRINCIPLES and PRACTICE of MEDICINE,.....	Four Lectures a week.
PRINCIPLES and PRACTICE of SURGERY,.....	Three Lectures a week.
SURGICAL ANATOMY, and FRACTURES & DISLOCATIONS,.....	Three Lectures a week.
OPHTHALMOLOGY,.....	One Lecture a week.
OBSTETRICS,.....	Three Lectures a week.
DISEASES of WOMEN,.....	One Lecture a week.
DISEASES of CHILDREN,.....	One Lecture a week.
MEDICAL CLINICS, and PATHOLOGICAL ANATOMY,.....	Five Hours a week.
SURGICAL CLINICS,.....	Four Hours a week.
OPHTHALMIC CLINICS,.....	Four Hours a week.
GYNÆCOLOGICAL CLINIC,.....	Two Hours a week.

ADMISSION TO ADVANCED CLASSES.

Students who have attended one course of lectures in some accredited regular school of medicine, may enter the Middle Class after passing a satisfactory examination in Chemistry and Anatomy. Students who have attended two such courses of lectures, may enter the Senior Class after passing a satisfactory examination in Chemistry, Anatomy, Physiology, and Materia Medica and Therapeutics.

These examinations shall be wholly or in part in writing, and the orthography and grammar shall be taken into consideration in determining the merits of the student.

REQUIREMENTS

FOR THE DEGREE OF DOCTOR OF MEDICINE.

1. The candidate must be twenty-one years of age and of good moral character, and must have been engaged in the study of medicine for three years (courses of lectures included.)

2. He must have attended *three* regular courses of lectures, the last of which must have been attended in this school. The Spring session is not estimated as a part of the courses required for graduation.

3. He must, by the first of February, notify the Dean, in writing, of his intention to become a candidate.

4. He must undergo a satisfactory examination on all the branches taught in this College.

Graduates of other accredited medical schools may obtain the degree "*ad eundem*" by producing satisfactory testimonials from regular physicians with respect to character and professional standing, entering the Senior Class for one Term, and passing a satisfactory examination on *all* branches taught in this College.

FEEES.

Matriculation Fee (paid but once).....	\$ 5 00
Fees for each Regular Term.....	90 00
No extra charge is made for Demonstrator's, Laboratory, or Hospital tickets. The fee for the third term includes the Graduation Fee.	
Fee for the Spring Session.....	\$ 25 00
For students who remain through the ensuing Winter Session, this sum will be deducted from the fee for the regular term.	
Laboratory Fee for students who work during the Spring Session.....	\$ 10 00

These fees must be paid promptly at the beginning of the session, and can in no case be remitted or reduced.

Promissory notes are not taken; it is contrary to the regulations of the College to accept them.

All tickets may be obtained from the Dean.

The matriculation ticket must be taken out before any other ticket can be obtained.

Students will be expected to exhibit their tickets to the Dean after the first two weeks of the session.

Graduates of this institution have perpetual free admission.

TEXT BOOKS.

The Faculty recommend the use of the following text-books; the one named first upon each subject in preference:

Roscoe's Lessons in Elementary Chemistry, or Fownes' Chemistry.

Gray's or Wilson's Anatomy; Bellamy's Surgical Anatomy.

Huxley's Lessons in Elementary Physiology (for Junior students); and Foster's, Carpenter's, or Flint's Human Physiology.

National Dispensatory. *Bartholow's or H. C. Wood's Therapeutics; Stille's Therapeutics and Materia Medica.*

Rindfleisch's Pathological Histology.

Watson's Practice of Physic; Niemeyer's Practice of Medicine; or Bristowe's Theory and Practice.

West, Meigs and Pepper, or J. L. Smith, on Diseases of Children.

Billroth's or Paget's Surgical Pathology.

Ashurst's, Druitt's, Erichsen's, or Bryant's Surgery.

Playfair's, Leishman's, Bedford's, or Cazeaux's Midwifery. Thomas, Emmet, or Barnes, on Diseases of Women.

Soelberg-Wells, Schweigger, or Nettleship, on Diseases of the Eye.

Boarding, including lights and fuel, can be obtained in respectable private families, at convenient distance from the College, at prices ranging from four to six dollars a week. Students, on their arrival in the city, are requested to report to the Janitor, at the College, northeast corner of Seventh and Myrtle streets, who will assist them in obtaining board. Letters addressed to any member of the Faculty will receive prompt attention. Alumni of the College, and other medical practitioners, who may desire to receive the Annual Announcement regularly, are requested to send their names and addresses to the Secretary of the Faculty, Dr. J. S. B. ALLEYNE, 1903 Carr street; notice of any change of residence is also desired. All further information may be obtained by addressing the Dean, or calling upon him at his office, No. 502 North Fourteenth Street.

J. T. HODGEN, M. D., DEAN.

Missouri Dental College of St. Louis.

THE SIXTEENTH ANNUAL SESSION will begin on Monday, Sept. 26th, 1881, and continue until March 4th, 1882.

FACULTY.

ISAIAH FORBES, D. D. S.,.....Emeritus Professor of Institutes of Dental Science

A. LITTON, M. D.,.....Professor of Chemistry and Pharmacy.
J. S. B. ALLEYNE, M. D.,.....Professor of Therapeutics and Materia Medica.
G. BAUMGARTEN, M. D.,.....Professor of Physiology.
H. H. MUDD, M. D.,.....Professor of Anatomy.
W. H. EAMES, D. D. S.,.....Professor of Institutes of Dental Science.
A. H. FULLER, M. D., D. D. S.,.....Professor of Operative Dentistry.
W. N. MORRISON, D. D. S.,.....Professor of Mechanical Dentistry.
J. G. HARPER, D. D. S.,.....Demonstrator of Operative Dentistry.
C. MATHIASON, D. D. S.,.....Demonstrator of Mechanical Dentistry.
J. FRIEDMAN, M. D.,.....Demonstrator of Chemistry.
H. H. MUDD, M. D.,.....Demonstrator of Anatomy

The instruction by the Professor of Institutes of Dental Science, and by the Professors of Operative and Mechanical Dentistry will be both didactic and clinical.

Demonstrations will be given each day at the Infirmary in both Operative and Mechanical work; the great importance of clinical instruction being fully recognized.

Candidates for graduation must have attended two full courses of lectures the first of which may have been in any accredited Dental or Medical school; but continued exclusive practice since January 1875 will be considered as equivalent to one of these courses. He must pass a satisfactory examination in all the branches taught.

The curriculum is so arranged that the Dental student can, by the study of a few additional subjects, put himself in a position to enter, at the completion of his Dental course, the third or Senior class of the St. Louis Medical College, and eventually obtain the degree of Doctor of Medicine by one additional year's work.

Matriculation Fee,.....	\$ 5 00
Tuition, Full Course,.....	110 00
“ Clinical Course of Dentistry only,.....	75 00
Diploma Fee,.....	20 00

QUIZ CLUB

OF THE

ST. LOUIS MEDICAL COLLEGE,

ESTABLISHED 1869.

The facts and theories presented in the lecture-room are gleaned from a literature so extensive and an experience so broad, that it is impossible for any student thoroughly to comprehend and digest, by his own efforts, the courses presented during the session. The QUIZ CLUB offers to the student an opportunity for the free discussion of the important points of the subject-matter of the lectures, and thus enables him to express concisely his views, corrects erroneous conceptions, fixes the salient points in his memory, and prepares him not only for the Green Room, but also for the emergencies of practice.

We offer to Students a Quiz on

Anatomy,	By Dr. Jno. Bryson.
Obstetrics,	By Dr. Wm. L. Barret.
Diseases of the Chest,	By Dr. W. Carr Glasgow.
Surgery,	By Dr. Henry H. Mudd.
Physiology,	By Dr. M. H. Post.
Chemistry,	By Dr. John Green.
Materia Medica and Therapeutics,	By Dr. W. E. Fischel.
Theory and Practice,	By Dr. James M. Scott.

The Junior Department comprises a Quiz on

Anatomy,	By Dr. W. A. McCandless.
Chemistry,	By Dr. J. Friedman.
Physiology,	By Dr. E. M. Nelson.

Examinations commence Sept. 26th, 1881, and will be held nightly during the entire session. One Quiz each week on every subject.

The Fee will be \$2.00 for each separate ticket.

For further information, inquire of

W. E. FISCHEL, M. D., Secretary,
1625 Carr Street.

N. B.—Special Courses will be given, if desired, during the Winter and Spring session, in the different departments, to Students or Practitioners.

THE
ALUMNI ASSOCIATION
OF THE
ST. LOUIS MEDICAL COLLEGE.

OFFICERS FOR THE YEAR 1881-82.

B. M. HYPES, M. D.....	PRESIDENT.
J. FRIEDMAN, M. D.....	VICE-PRESIDENT.
WILLIS HALL, M. D.....	RECORDING SECRETARY.
JOHN B. SHAPLEIGH, M. D.....	CORRESPONDING SECRETARY.
EDWARD EVERS, M. D.....	TREASURER.
W. A. McCANDLESS, M. D.....	LIBRARIAN.

COMMITTEE OF ARRANGEMENTS.

I. N. LOVE, M. D.,	L. CH. BOISLINIERE, M. D.,
C. W. STEVENS, M. D.,	HENRY H. MUDD, M. D.,
GEO. F. GILL, M. D.,	B. M. HYPES, M. D.,
J. FRIEDMAN, M. D.,	JOHN GREEN, M. D.

ARTICLE III.

MEMBERSHIP.

Any graduate of the St. Louis Medical College, of good moral and correct professional character, may, on written application, enclosing initiation fee, become an associate member of this Association.

ARTICLE V.

DUES.

Every member shall pay the sum of \$1.00 as annual tax.
The Annual Meeting of the Association is held the day after the Commencement of the St. Louis Medical College.
